Is this installation a result of the Time of Transfer inspection law?  Yes  No

If for new construction, is a building permit application on file with the Butler County Zoning Administrator?  Yes     No     Not Applicable

If you are replacing or repairing an existing system, would you like information about the Onsite Wastewater Loan Program?  Yes     No (Not available for new construction)     Not Applicable

A private sewage disposal permit is valid for a period of one year. If the system is not installed within one year of the permit being issued, the applicant must apply for another private sewage disposal permit and pay the permit fee required at that time.

The private sewage disposal system must be installed by a contractor who is licensed and certified with Butler County. You can request a list of contractors from this office.

A soil analysis will need to be conducted by this office in order to determine the size of drain field. **\*\*A backhoe must be made available for the soil analysis\*\***
